PROFILE

Motivated Software Engineering student (UMT, Lahore) with a strong foundation in HTML, CSS, and JavaScript. Experienced in building websites and frontend projects. Eager to apply technical skills, learn modern frameworks, and contribute to real-world software projects.

PROJECTS

ZenDrone Website (Clone)

Developed a responsive drone landing page clone using HTML, CSS, and JavaScript, focusing on modern UI/UX design and interactivity.

github : <https://github.com/Khadijaasif2300/ZenDrone-clone.git>

Eduford University Website (Clone)

Created a clone of the Eduford University website using HTML and CSS. Practiced layout design, structure, and styling by replicating a real-world website.

github : <https://github.com/Khadijaasif2300/Eduford-university-clone.git>

Explore-Pakistan

Developed an interactive Explore-Pakistan website using HTML, CSS, and JavaScript to showcase key cities, cultural landmarks, and tourism destinations with smooth navigation and responsive design.

github : <https://github.com/Khadijaasif2300/Explore-Pakistan.git>
